ABSTRACT

The Ohio Instructional Grant Program is a financial aid program designed to assist low- and middle-income students who are enrolled for full-time undergraduate study in eligible Ohio institutions of higher education. It is intended to supplement financial resources that are already available to students. The Ohio General Assembly appropriated $21,300,000 to fund the program for the 1974-75 academic year. Fifty-one private colleges and universities, twelve state universities and their twenty branches, and twenty-three public two-year colleges participated in the program. Profiles of the financial aspects and the students involved are presented. (Author/KE)

OHIO INSTRUCTIONAL GRANT ACT

In accordance with the provisions of Section 3333.12 of the Ohio Revised Code enacted into law by the 108th Ohio General Assembly in 1969 and subsequent revisions made by the 109th and 110th Ohio General Assemblies in 1971, 1973 and 1974, the Ohio Board of Regents shall administer the Ohio Instructional Grant Program for undergraduate students enrolled during the academic year 1974-75. The revision enacted by the 110th Ohio General Assembly reads as follows:

> The Ohio Board of Regents shall establish and administer an instructional grant program for full-time undergraduate students in an Ohio institution of higher education which is state-assisted or which has received a certificate of authorization from the Board pursuant to Chapter 1713. of the Revised Code. The Board may adopt rules and regulations to carry out this section. The General Assembly shall support the instructional grant program by such sums and in such manner as it may provide, but the Board may also receive funds from other sources to support the program. If the amounts available for support of the program are inadequate to provide grants to all eligible students, preference in the payment of grants shall be in the following order: (1) freshmen; (2) sophomores; (3) juniors; and (4) seniors.
>
> In order to be eligible for an instructional grant, a student shall be a resident of Ohio and shall be enrolled as a full-time student in an Ohio institution of higher education which meets the requirements of Title VI of the "Civil Rights Act of 1964." "Resident" and "full-time student" shall be defined by rules adopted by the Board. An instructional grant shall be paid to an eligible student through the college or university in which he is enrolled. Applications for such grants shall be made as prescribed by the Board of Regents and such applications may be made in conjunction with and upon the basis of information provided in conjunction with student assistance programs funded by agencies of the United States government or from financial resources of the institution of higher education. The college or university shall certify that the student applicant is enrolled as a full-time student. Instructional grants shall be provided to an eligible student only as long as he or she is enrolled and is making appropriate progress toward an associate or bachelor's degree. The grant shall cover two semesters or three quarters or the equivalent of one academic year.

Instructional grants shall be made to a student if the student is enrolled in an Ohio institution of higher education where the instructional and general fees are one thousand dollars or more for a two semester or three quarter academic year or if the student is enrolled in a technical education program of at least two years' duration sponsored by a private institution of higher education. The grant shall not exceed the total instructional and general charges of the institution. The amount of the instructional grant shall be determined in accordance with the following table:

	NUMBER OF DEPENDENT CHILDREN				
Adjusted Effective Income	1	2	3	4	5 or More
$ 4,000 and Under	$1,500	$1,500	$1,500	$1,500	$1,500
$ 4,001 - $ 4,999	1,350	1,500	1,500	1,500	1,500
$ 5,000 - $ 5,999	1,200	1,350	1,500	1,500	1,500
$ 6,000 - $ 6,999	1,050	1,200	1,350	1,500	1,500
$ 7,000 - $ 7,999	900	1,050	1,200	1,350	1,500
$ 8,000 - $ 8,999	750	900	1,050	1,200	1,350
$ 9,000 - $ 9,999	600	750	900	1,050	1,200
$10,000 - $10,999	450	600	750	900	1,050
$11,000 - $13,999	300	450	600	750	900
$14,000 - $14,999	150	300	450	600	750
$15,000 and Over	-0-	-0-	-0-	-0-	-0-

Instructional grants shall be made to a student if the student is enrolled in an Ohio institution of higher education where the instructional and general fees are less than one thousand dollars for a two semester or three quarter academic year. The grant shall not exceed the total instructional and general charges of the institution. The amount of the instructional grant shall be determined in accordance with the following table:

	NUMBER OF DEPENDENT CHILDREN				
Adjusted Effective Income	1	2	3	4	5 or More
$ 4,000 and Under	$600	$600	$600	$600	$600
$ 4,001 - $ 4,999	540	600	600	600	600
$ 5,000 - $ 5,999	480	540	600	600	600
$ 6,000 - $ 6,999	420	480	540	600	600
$ 7,000 - $ 7,999	360	420	480	540	600
$ 8,000 - $ 8,999	300	360	420	480	540
$ 9,000 - $ 9,999	240	300	360	420	480
$10,000 - $10,999	180	240	300	360	420
$11,000 - $13,999	150	180	240	300	360
$14,000 - $14,999	90	150	180	240	300
$15,000 and Over	-0-	-0-	-0-	-0-	-0-

"Adjusted Effective Income" as used in this section shall be defined by rule adopted by the Ohio Board of Regents, and may take into account the income of the student and of the student's parents and spouse. Family income may be verified by supplying to the Board of Regents a copy of the federal government tax return, by authorizing access to the family federal government income tax return, or by other means satisfactory to the Board.

No grant shall be made to any student in a course of study leading to a degree in theology, religion, or other field of preparation for a religious profession.

PURPOSE OF THE PROGRAM

The Ohio Instructional Grant Program is a financial aid program designed to assist low and middle income students who are enrolled for full-time undergraduate study in eligible Ohio institutions of higher education. These grants are not intended to cover all college costs nor are they intended to meet the total unmet need of participating students. Ohio Instructional Grants serve as one source of student assistance and should be combined with available funds from other financial aid programs including Basic Grants, Supplemental Educational Opportunity Grants, Work-Study, student loans and scholarships.

The major objective of the Ohio Instructional Grant Program is to assist in the elimination of the economic barrier which discourages many promising students in their plans to seek higher education. It is not the intent of the program to replace appropriate financial resources which are available to students to pay the cost of higher education, but rather to supplement these resources which include parental income as well as the student's own financial resources.

Ohio Instructional Grants are not awarded upon the basis of scholarship, as such, but upon the basis of relative financial need. Grants are awarded to the average as well as the superior student.

INTRODUCTION

Ohio Instructional Grants were made available to students enrolled during the 1974-75 academic year as freshmen, sophomores, juniors and seniors. The 110th Ohio General Assembly appropriated $21,300,000 to fund the program. Fifty-one private colleges and universities, twelve state universities and their twenty branches, and twenty-three public two-year colleges participated in the program during the 1974-75 academic year.

Eligibility Requirements

In order to be eligible for consideration of a grant, a student must meet the following requirements:

(1) Be a resident of Ohio.

(2) Be enrolled as a full-time undergraduate student in an eligible Ohio institution of higher education.

(3) Be making appropriate progress toward an associate degree or a bachelor's degree.

(4) Not be enrolled in a course of study leading to a degree in theology, religion, or other field of preparation for a religious profession.

Application Procedure

An Ohio student who is enrolled or plans to be enrolled in an eligible Ohio institution of higher education on a full-time basis must apply for an instructional grant through the Student Assistance Office of the Ohio Board of Regents.

The student obtains an application packet from either the high school counselor, the financial aid office of the college or the Board of Regents.

The student and the student's parents complete the application and the income statement which is a part of the application, and submit these to the Student Assistance Office of the Ohio Board of Regents.

The Student Assistance Office then determines the amount to which the student is entitled based upon the family's adjusted effective income and the number of dependent children in the family.

The student then receives an award certificate which is submitted to the financial aid office of the college.

Method of Payment

The student receives the Ohio Instructional Grant through the financial aid office as provided by the Student Assistance Office of the Board of Regents. The grant is applied to the instructional and general charges of the college or university.

SECTION I

FINANCIAL PROFILE

Appropriations

The 110th Ohio General Assembly appropriated $21,300,000 to fund the program for the 1974-75 academic year. In addition, Ohio received $912,800 under the federal State Student Incentive Grant Program. Fifty-one private colleges, twelve state universities and their branches, five two-year public community colleges and eighteen two-year public technical colleges participated in the program during the 1974-75 academic year.

Geographic Distribution of Grant Recipients

The figures in Table I indicate that 51.0% of all grant recipients reside in six counties--Cuyahoga, Franklin, Hamilton, Mahoning, Montgomery and Summit; 62.6% of all recipients reside in these six counties plus Lorain, Lucas, Stark and Trumbull. Based upon the 1970 census, 59% of the Ohio population resides in these ten counties.

With Franklin County as the north-south division point, 63.1% of all grant recipients reside in the 50 northern counties and 36.9% in the 38 southern counties.

Based upon the 1970 census, the total of grant recipients represented .004% of the state's population. On a county-by-county basis, the range was .002% to .006%.

Distribution of Grants by Type of Institution

The average grant awarded to students attending private colleges was $802 representing a 10% increase over the average grant awarded during the 1973-74 academic year. Of all grant recipients, 25.7% or 10,897 attended private colleges. This is a small decrease under the 1973-74 total.

The average grant awarded to students attending public institutions was $312 representing a 3.5% increase over the average grant awarded during the 1973-74 academic year. Of all grant recipients, 74.3% or 31,489 attended public institutions. This is an increase of 5.8% or 1,827 students over the 1973-74 academic year.

Of the state and federal funds totaling $22,212,800 for the 1974-75 academic year, $8,742,739 was utilized by 10,897 students attending private colleges, while $9,899,594 was utilized by 31,489 students attending public institutions. Thus, 42,386 students utilized $18,642,333 during the 1974-75 academic year. The average grant for all recipients was $440. This represents a 5.8% increase over the $416 average grant for the 1973-74 academic year.

Distribution of Grant Recipients by Institution

Of those grant recipients attending private colleges 18% are Black, 62% live in urban communities, 91% are classified as dependent students and 75% come from double parent families.

Of those grant recipients attending four-year public institutions and their branches, 26% are Black, 68% live in urban communities, 85% are classified as dependent students and 67% come from double parent families.

The two-year public institutions, as in previous years, continue to reflect distinct differences in student characteristics as compared to four-year public and private institutions. Black students represent 36% of those grant recipients attending two-year public institutions and 70% live in urban communities, while 73% are classified as dependent students and 56% come from double parent families.

Distribution of Grant Recipients by Family Income

Of those recipients attending private colleges, 43.9% come from families with gross incomes of less than $10,000 while of those attending four-year public institutions, 50.6% come from families with gross incomes of less than $10,000. The two-year public institutions demonstrate significant comparison in terms of the number of low income students receiving grants. Some 63.4% of the recipients attending two-year public institutions come from families with gross incomes of less than $10,000.

Of the total number of Black students receiving grants, 74% come from families with gross incomes of less than $10,000.

Of all grant recipients, 50.5% or 21,413 come from families with gross incomes of less than $10,000.

Of all grant recipients, 20.3% come from families with an adjusted effective income between $0 and $5,999; 14.5% come from families with an adjusted effective income between $6,000 and $7,999; 27.4% from families with an adjusted effective income between $8,000 and $10,999 and 37.9% from families with an adjusted effective income between $11,000 and $14,999. Thus, 52.4% of all grant recipients come from families with adjusted effective incomes of less than $10,000.

Distribution by Grants Awarded

Of the grant recipients for 1974-75, 9.9% of those attending private colleges received maximum grant awards of $1,500. This represents a 19.5% decrease under the 1973-74 totals. At the four-year public institutions, 9.5% received maximum grant awards of $600 representing a 25.2% decrease under the 1973-74 totals.

At the two-year public institutions, 3.8% received maximum grant awards of $600. However, approximately half of those attending two-year public institutions received the maximum amount based on the instructional and general fees of such institutions. Overall, 10.1% received a maximum grant award.

Black Student Profile

Of all Black student recipients, 18.2% attended private colleges, 63.8% attended four-year public institutions and 18% attended two-year public institutions. Black students represented 17.8% of all recipients attending private colleges, 25.9% of all recipients attending four-year public institutions and 35.6% of all recipients attending two-year public institutions.

Of the total Black recipients, 90% live in urban communities, 52% come from single parent families, and 48.5% come from families with three or more dependent children. Of all Black student recipients, 74% come from families with adjusted effective incomes of less than $10,000.

Distribution of Students by Class Level

Of the 42,386 recipients, 45.1% were freshmen, 25.6% were sophomores, 16.6% were juniors and 12.7% were seniors. Some 17.0% of all full-time undergraduate students attending eligible participating institutions received assistance from the program.

OIG Recipients by Select Income Categories

A comparison of the program between 1972-73, 1973-74 and 1974-75 demonstrates that there was a reduction of some 10,000 students in the less than $10,000 income categories during this period, while there was an increase of nearly 16,000 students in the $10,000 and over categories. A similar comparison was demonstrated involving Black students. There was a reduction of some 400 Black students in the less than $10,000 income categories while there was an increase of some 2,300 Black students in the $10,000 and over categories.

Average Student Profile

Of all grant recipients, 74.3% attended public institutions; 50.5% came from families with gross incomes over $10,000. The average recipient is 19.6 years old, white, comes from a double parent family and lives in an urban community. In terms of sex, 52.7% of the recipients are female and only in private colleges are there more male than female recipients (52.2% to 47.8%). In 65.9% of the families, one parent is working and in 22.4% of the families, both parents are working. The average grant for students attending public institutions was $312 and the average grant for those attending private colleges was $802. The average grant for the total of recipients was $440.

The State Student Incentive Grants Program

For the 1974-75 academic year, the State of Ohio received for the first time $912,800 in matching federal funds. These funds, on a 50-50 matching basis, were awarded to 1,252 students.

State and Federal Programs

In addition to the Ohio Instructional Grants Program, the State of Ohio through the Ohio Student Loan Commission, provides a Guaranteed Loan Program for Ohio students. Students may borrow up to $2,500 per year from participating Ohio lending institutions.

The federal government provided four additional programs of financial assistance for Ohio students during the 1974-75 academic year--the National Direct Student Loan Program (N.D.S.L.), the Supplemental Educational Opportunity Grants Program (S.E.O.G.), the College Work-Study Program (C.W.S.), and the Basic Educational Opportunity Grant Program (B.E.O.G.).

During the 1974-75 academic year, the federal government provided the following funds for Ohio institutions:

National Direct Student Loan	$14,237,520
Supplemental Educational Opportunity Grant	9,000,318
College Work-Study	11,560,351
Basic Educational Opportunity Grant	11,509,680
TOTAL	$46,307,869

The State of Ohio provided the following:

Ohio Instructional Grants	$18,642,333
Ohio Student Loans	26,371,839
TOTAL	$45,014,172

Thus, a total of $91,322,041 in assistance was provided students attending Ohio institutions. Of this total, 20.4% came from the Ohio Instructional Grants Program and 49.3% from the Ohio Instructional Grants Program and the Ohio Student Loan Program.

DISTRIBUTION OF GRANT RECIPIENTS BY COUNTY

Top figure represents number of Ohio Instructional Grant recipients.

Bottom figure represents percent of grant recipients statewide.

SECTION II

STUDENT PROFILE

The following data reflect some specific academic and non-academic characteristics of the Ohio Instructional Grant recipients for the 1974-75 academic year. This profile is a result of a cooperative effort between the Student Assistance Office of the Ohio Board of Regents and the American College Testing Program. This office extends its appreciation to Tom Colaner of ACT for his special efforts in the development and implementation of this aspect of the Annual Report.

The following charts are based on freshmen class Ohio Instructional Grant recipients who took the ACT and completed the student profile questionnaire during their senior year in high school prior to entering college in the 1974-75 academic year. The statistics in this report show that ACT scores of OIG recipients were higher than those of the national sample in every category except natural science. The composite of English, math, social studies and natural science scores for the grant recipients was 19.2 as compared with the national norm of 18.6. The grant recipients showed a 2.94 high school grade average as compared to a national average of 2.91.

In terms of proposed educational majors, there was little difference between grant recipients and the national norm. For both groups, the most typical planned educational major was in the health professions. However, the grant recipients indicated a greater preference for the field of education (16% - 11%).

There were no significant differences in the level of educational degrees sought by the two groups: 19% of both groups planned to seek doctorates at some time in their educational careers.

In the area of special educational needs, the grant recipients expressed less need for help in choosing a college major, but a greater need for improving reading, math and writing skills.

Grant recipients expressed a greater interest in advanced college study than the national sample. Larger percentages of grant recipients indicated a desire to be considered for independent study, honors programs, and advanced English, math and foreign languages.

The single most significant difference between the grant recipients and the national group involved the need for financial assistance. Some 90% of the grant recipients expected to apply for financial aid throughout their college careers as compared to only 61% of the national norm. Some 60% of both groups indicated a desire to work while in college and expressed a need for help in finding employment.

Both groups of students were asked to indicate the single most important factor in making a college choice. These factors included the intellectual reputation, social climate, location and size of a school, and financial considerations. Generally, differences here between the two groups were not significant, except in the area of financial considerations. For the Ohio Instructional Grant recipients, cost was the most important factor in making a college choice. Some 26% of the OIG students ranked this as the most significant influence as compared to 16% of the national sample. Other top ranking college choice factors for both groups included field of study, type of institution, and location.
